INTRODUCTION

Wissam Al-Khaleej Acrylic Product Co, Fabricators & Designer of Acrylic Solid Surface in K.S.A. since 1986.

We are one of the prominent fabricator and supplier of a massive collection of acrylic solid surface products. What we do, We work through a network of dealers, providing countertop fabrication and installation. As a new decoration material Solid Surfaces can be used in fabrication of Countertop, wall cladding and vanity top in residential or commercial place, such as Homes, Banks, Malls, Hotels, Hospitality, Catering, Offices, Shops, Airports, Hospitals and Public buildings.

WAPCO is committed to timely quotes, competitive pricing, quick turnaround installation, win business relationship, and much more. Our Certified dedicated staff has over 33 years of combined countertop experience.

Today, the business continues to grow with the same intent of quality and service that always been its hallmark. WAPCO has built a reputation as “the place” for countertops in Kingdom of Saudi Arabia.

WAPCO, we work with Staron High Performance Acrylic Solid Surface, Vendor we trust in order to provide you with the highest quality of product for your unique project. LOTTE Advanced Materials, a chemical corporation of Global LOTTE, is a leading company in Asia and around the globe. We strive

We take pride in our quality of work. With sophisticated fabrication equipment and highly qualified craftsmen, and We believe in customer satisfaction and loyalty, and in order to deliver the best quality. Our distinctive management structure provide our customers with the world class services.

Bringing Excellence to the Solid Surface

OUR PROCESS

STEP 1 - PLAN

There's a lot to think about when designing a custom kitchen or bathroom. It all begins with your inspiration, and it ends with the perfect countertop installation. Once your design is finalized, drawings are sent to our experienced CSR's to create an estimate and make needed revisions. After an estimate is signed, our trained scheduling department takes over and assigns tentative template, production, and installation dates.

STEP 2 - MEASURE

Since no wall is perfectly flat or smooth, capturing an accurate measurement is the first step in creating your new countertops. Our trained experts will visit the installation site and use the latest in technology to create a precise digital template that ensures an exact fit. These templates and measurements are then taken to our engineers who create AutoCAD drawings that are sent to the customer for approval.

STEP 3 - FABRICATE

Once final drawings are approved, our state-of-the-art equipment cuts and polishes your surface, using the digital template as a guide. Skilled craftsmen prepare the final product to meet your custom specifications, which produces a high-quality countertop.

STEP 4 - INSTALLATION

Our team will manage every detail of your installation, working with you to achieve the beautiful results you expect.

Finishing Surface Products of the Highest Standard.

WAPCO was established through the vast experience and technical expertise of its founders. Since the company's inception, it has grown into the leading supplier of cutting-edge products in interior and exterior finishing solutions.
